Options	None: the whole conversation

What this document is

An organized copy of the file WhatsApp wrote when the chat was exported, made on the device of the person who made this PDF. Each message carries the number it has in that file, with the date, time and sender as the phone wrote them.

It does not certify that the conversation is authentic or complete. The SHA-256 hash lets anyone check that this PDF was made from that exact file: change one character in the file and the hash changes.

Whether it is accepted as evidence, and what weight it has, is for the court or the office that receives it. If the other side disputes it, a notary's record or a forensic expert's report may be needed.

Emoji and characters the PDF's font doesn't have are written as their Unicode code points in brackets, for example [U+1F600].

2026-09-28 10:02:11 · WhatsApp notice

Messages and calls are end-to-end encrypted. No one outside of this chat, not even WhatsApp, can read or listen to them.

Emma Clarke 2026-09-28 10:02:40

Hi Daniel, I'll hand the keys back on Wednesday the 30th at 6 pm as agreed.

Daniel Hughes 2026-09-28 10:15:02

Great. We can do the walk-through together then.

Wednesday, 30 September 2026

Emma Clarke 2026-09-30 18:00:31

Done: keys returned and we checked the flat together. All fine.

Daniel Hughes 2026-09-30 18:01:05

Yes, all good [U+1F44D]

Emma Clarke 2026-09-30 18:03:40

Could you return the deposit this week? It's \$1,200.

Daniel Hughes 2026-09-30 18:05:12

I'll send it as soon as the last electricity bill comes in.

13 **Emma Clarke** 2026-10-07 20:00:15

Hi Daniel, the transfer hasn't arrived yet.

Friday, 9 October 2026

14 **Emma Clarke** 2026-10-09 11:24:47

Could you get back to me, please? I need the money for the deposit on my new place.

15 **Daniel Hughes** 2026-10-09 21:50:02

Can't this week, sorry. I'll pay you at the end of the month.

Attachment index

How to check a hash

Windows: certutil -hashfile "file name" SHA256

Mac: shasum -a 256 "file name"

Linux: sha256sum "file name"

The result must match the hash printed here, character for character.
